Veco Administration Guides –

Postcode Anywhere Credit Types

The type of credit you require is called: **Full UK Premise Level**; this means the results will include the building name and number as well as the street, town, county, postcode etc.

You can purchase a **credit plan** from Postcode Anywhere**.** A chart of their costs is available on their website: http://www.postcodeanywhere.co.uk/windows-desktop-lookup-software/pricing/ (or see screen shot below – the section highlighted in red is the one you should use if you need full address details, which in most cases will be necessary. There are cheaper options available but they will return less address details.)

We advise you speak to Postcode Anywhere directly so they can explain the differences in the price chart. Please ask for Neil Majhu.

Credit plans

All plans allow access to the Postcode Anywhere services for 12 months or until credit is exhausted, whichever occurs first.

Service		£25	£50	£100	£250	£500	£1,000	£2,500

Once you have purchased your credits you will need to enter your license key into Veco.
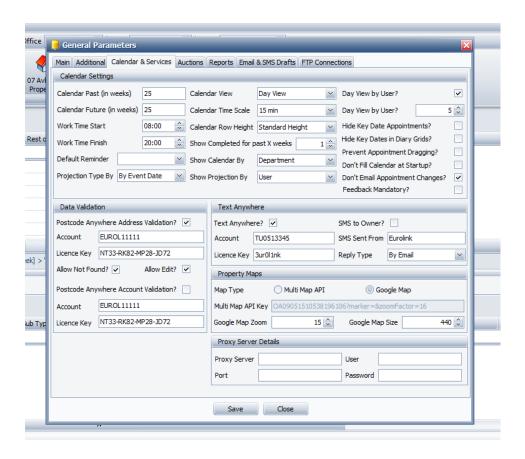

In Veco, go to the Admin menu >

Select General Parameters >

Click on the tab called Calendar & Services >

In the section called Data Validation, enter your Account Number and License key in the fields available (these will be provided to you by Postcode Anywhere).

Click Save.

NB. Prices are subject to change and you should refer to the Postcode Anywhere website for up-to-date details.
